

Channel Connect – Channel Management from Navarino Services.

Channel Connect is a direct (two-way interface) connection to multiple distribution channels including Online Tour Operators (OTA's), Travel Portals, Tour Operators and Meta-Search Sites.

Our growing list of direct connect partners include the industry's leading global travel sites and Tour Operators, and is continuously updated to include additional sites.

What are the benefits?

- Eliminate the need to manage rates and availability on separate extranets
- Rates and availability integrate directly from the Navarino CRS to 3rd party travel sites
- Allows you to strategically manage room availability more accurately in real time
- Increases bookings by allowing you to offer a wider range of room types and increased inventory.
- Increases your global distribution, allowing you to connect to, and sell via, a wider range of global travel sites.
- Technology is always improving to provide wider range of functionality allowing you to better manage all your distribution partners.

DESTINATIONS OF THE WORLD

Please Note that you need to contract directly with all sites to be able to manage via Navarino Channel Connect.

Sites we connect to are listed on page 2 - if you do not see a site you work with please ask us as we may already be working on setting up a connection.

For any of the sites below which you do NOT currently already work with, we are happy to provide additional details on these sites and assist with putting you in contact so you can further increase your distribution – please discuss with your Account Manager.

If you would like to proceed with using Navarino Channel Connect to manage any of your 3rd party sites, please sign and return this document and note the sites with which you already have a connection and would like us to connect to and your Account Manager will be in touch to proceed with this.

Please note that all our channel connect partner sites have are different in their set up and procedures and therefore timescales for implementation can vary. Your Account Manager will provide you with details as the set up continues.

If you would like to discuss Channel Connect further, please contact your Navarino Account Manager or
Email: support@navarinoservices.com

Your Navarino Account Manager can assist you in making sure you are participating in the right programs to maximize your revenue opportunities.
